

Super Division Guidelines

All rules remain the same as regular divisions with the following exceptions:

Handicap for 5 races is 26, instead of 23.

In 8-ball, you can only play two 7's in one night.

In 9-ball, you can only play two 7's or above in one night.

If the lowest 5 rated players on your team total 27 or more, then you can play 4 to 22, and forfeit the 5th race.

All awards and trophies remain the same, except there are no 2nd place team trophies/awards, and no MIP award.

There are no tri cups for this format. All money that would have been put in the tricup fund will instead be put in the regional fund.

There is no slot for this format in Vegas, so all the money that would have been put aside for Vegas will also go in the regional fund.

Teams playing in regionals will be playing for the money, prestige and trophies.

If a division has 7 or less teams, only one team will advance after playoffs to regionals.

If there are 8-16 teams in the division, then the first 2 teams after playoffs will advance to regional. This is subject to change depending on the growth of super divisions.

Playoff fees will remain the same as weekly team fees.

As of Fall session 2008, there is only one super division. Horizon Super double jeopardy plays in the Beaverton area on Sunday afternoons at 2 pm.

If you want to put your own division together, you need to have a minimum of 4 teams. It can be 8-Ball only, 9-Ball only, or double jeopardy.
